

COMPANY PROFILE

QIMAT AL-IQTIDAR ENGINEERING FOR
CONTRACTING AND TRADING

OUR WORD

Iraq is witnessing a comprehensive renaissance in various aspects of life. Based on our keenness to contribute to building the march of this dear country, the idea of establishing the QA Qimat AL-Iqtidar engineering for contracts came as a stepping-stone in the progress of the country and one of the models of construction, giving and success at the local level and global.

In 2007, the company established with a modern vision and took on the excellence and credibility in the work, which made it linked to transactions and contracts under the supervision of major companies such as Shell, BP, CPP, LUCK OIL, SAMSUNG ENGINEERING, ZAIN of communication and other local & international companies.

The company has a good reputation in the contracting and processing sector for its excellence in specifications and its conformity to international

quality. It is one of the active young companies in the field of general contracting. It implements several fields such as metal constructions, welding pipelines, piping networks, maintenance works for oil refineries and units, Roads and maintenance, as well as the establishment and maintenance of water, sewage and other networks, and use the latest construction and mechanical equipment according to the experience and work of the construction projects in the region.

The QA engineering definition is the peak of professionalism, characterized by the means of security and safety in the world in the performance of its work as it can work in sensitive and hazardous facilities because it has the staff of administrative, technical professional, consultants, engineers and trained workers with the expertise to implement all the projects within the vision, mission and specific goals we seek to achieve sponsored by God.

OVERVIEW

QA Symbol of excellence and credibility

When we talk about the construction sector and oil projects in Iraq, the companies that related to this sector, we need a long list of names but the remaining companies that have been able to prove their existence and continue to do so are Qimat AL- Iqtidar Engineering Company from these companies that have been glowing in this field. The company established in 2007 by letter Ministry of Commerce No. (m.St /20-6083) at capital of one million Dollar US as a start, headquartered in Baghdad- Karrada/ Street-62, also it has three main branches in Iraq in Basra, Najaf and Karbala.

Since its establishment, it has taken upon itself excellence in work, speed in delivery, punctuality and customer satisfaction; it works hard through its diverse local and multinational team of engineers, technicians and administrators to achieve its objectives. During the course of its career it was able to obtain the ISO 9001 quality system and ISO for the industrial safety system 18001 OHSAS due to the wise management and staff working in a team spirit.

OUR VISION

We aspire to be a leading, pioneering and competitive company at the local level, by providing integrated services and conforming to international specifications in construction, processing and logistics projects, especially in the oil and gas sector.

OUR MISSION

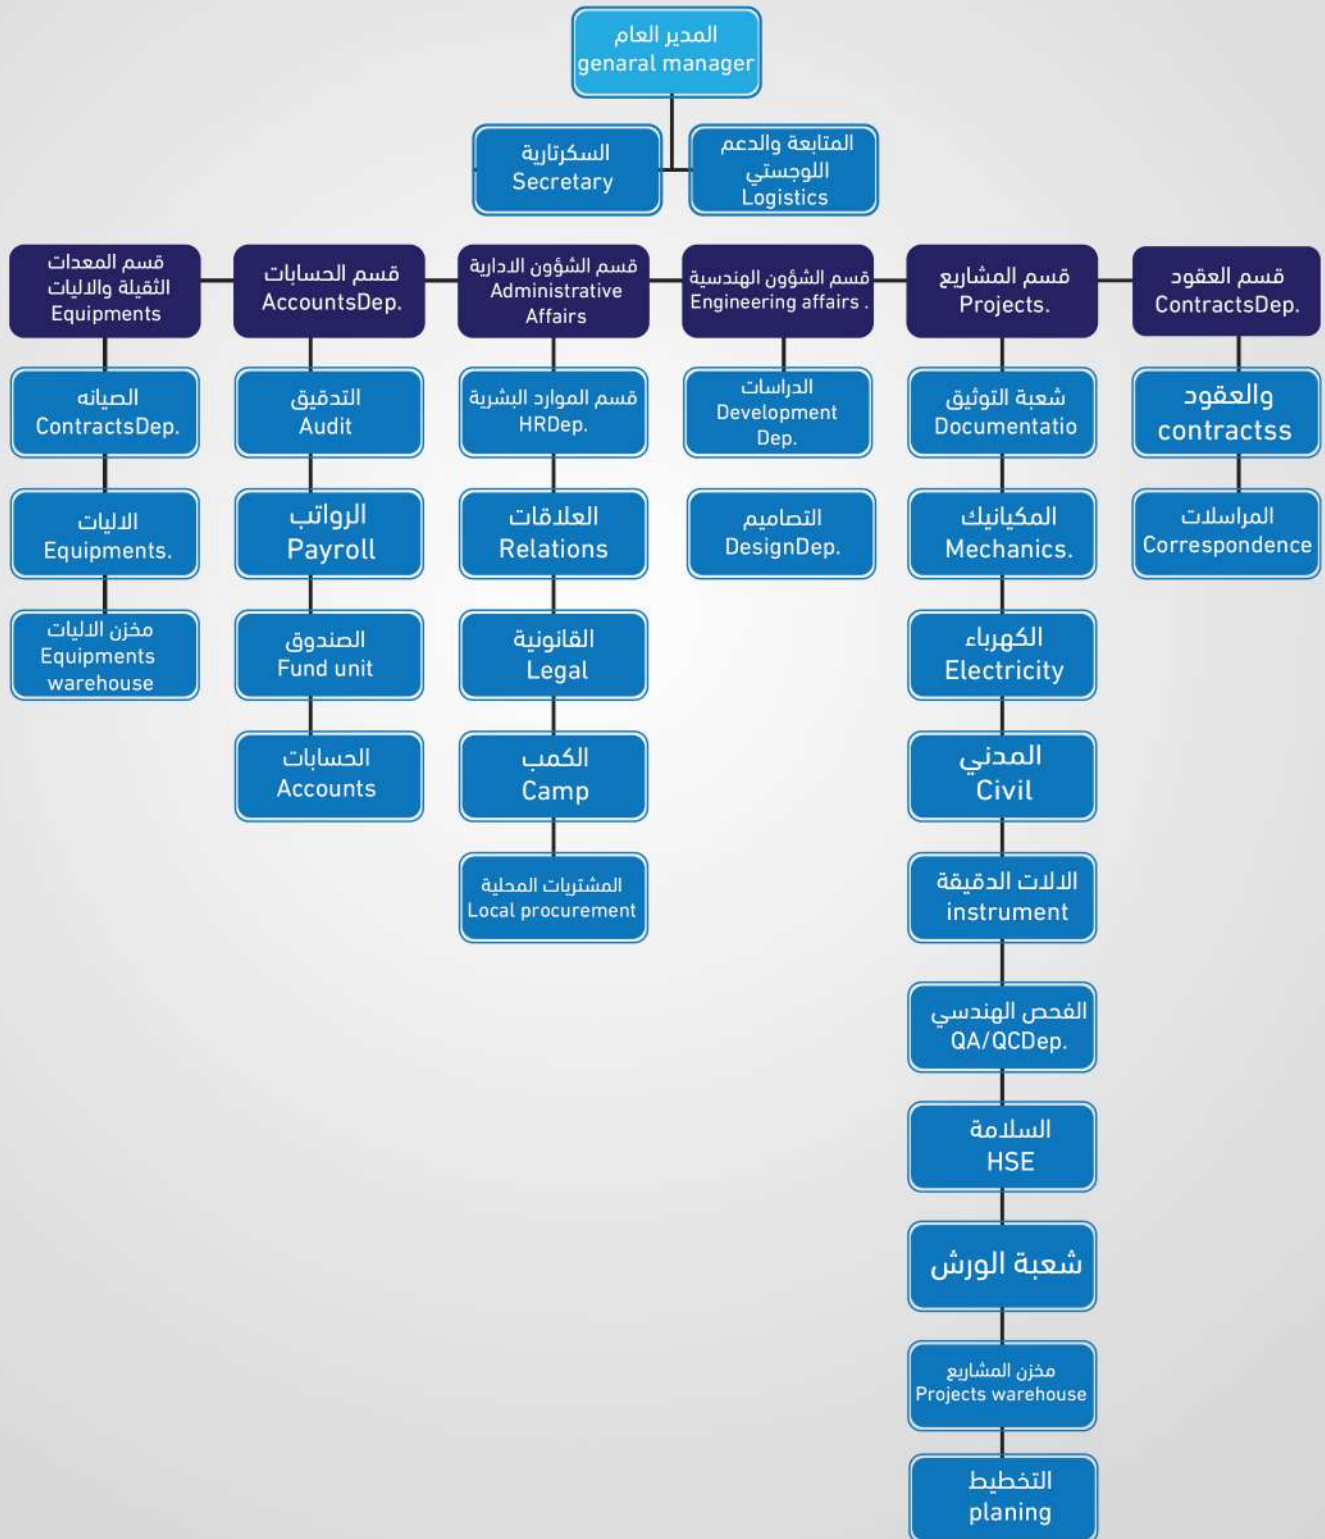

- Accelerate work.
- Accuracy in action.
- Teamwork with our customers.
- Commitment to work schedules

OUR GOALS

- Providing the best services for general contracting.
- Improving the level of work within international safety and quality standards.
- Use all the technical, technical and administrative capabilities of the company to show outstanding work.
- Establishing a strong relationship based on mutual trust, integrity and credibility between QA and its clients.

ORGANIZATIONAL CHART

QA Symbol of excellence and credibility

Our Equipment

ITEM DESCRIPTION	NOS	ITEM DESCRIPTION	NOS
Crane 25 tons	5	excavator	6
Crane 50 /35 tons	4	Compactor steel drum	3
Side Boom	6	Compactor rubber wheel	8
Forklift truck	6	Asphalt paving truck	2
Loader truck	14	Horizontal Drilling Machine (boring)	4
Man lift	6	HDD drilling machine	2
Boom Truck	6	Concrete batch plant	2
Shovel	3	Pick up	25
Bulldozer	2	Air Compressor	4
Truck dumper	8	SAW welding machine	4
Concrete mixing truck	10	Welding machines SMAW /GTAW	42
Concrete pump truck	3	Sand blasting machine	3
Bus	8	Facing machine	3
Water tanker	6	Rolling machine	1

Our Staff

ITEM DESCRIPTION	NOS	ITEM DESCRIPTION	NOS
General Manager	1	instrument engineer	1
Manager of Engineering Affairs	1	Planner engineer	2
Manager of Administrative Affairs	1	documenters	3
Manager of Commercial and Contracts	1	Supervisor	12
Manager of Projects Department	1	Foreman	10
Consultant	2	Fitter/fabricator	22
PROJECT MANAGER	2	Welder	34
CONSTRUCTION MANAGER	4	Grinder man	18
QA/QC MANAGER	1	worker	64
HSE MANGER	1	technician	14
HSE supervisor	8	Surveyor	4
QA/QC engineer	5	Administrators	8
Mechanical engineer	5	Accountants	5
Civil engineer	7	Drivers	18
Electrical engineer	3	Rigger	8
Banks man	3	First aid	3
Scaffold man	13	Nurse	2
Rescue teams	2		

قمة الإقتدار
QIMAT AL-IQTIDAR
ENGINEERING COMPANY

Our interest

The company's main activities and specialties are in the following:

- Construction and welding of pipelines
- Pre fabricating & welding piping projects
- Construction and installation of oil mechanical units
- Construction of oil storage tanks
- Maintenance of oil storage tanks
- Construction of civil works infrastructure for oil projects
- General mechanical maintenance of oil units
- Supply and installation of steel structures
- Civil construction of all kinds
- Concrete processing and pre-casting
- Installation and extension of electrical cables for industrial units
- Installation and installation of precision machines
- Design, installation and installation of fire systems for industrial plants
- Logistical support & Supply
- Rental of heavy machinery and equipment
- Construction and installation of camps for oil companies
- Horizontal drilling works by Boring machines
- Material Supply

Our projects

Mechanical projects

Project	Project Description	Responsible	Start	End
1 Construction Flow line 10	pipeline welding and inspection of underground pipeline at length 32 km in Wasit Governorate	SCOP / Ministry of oil/IRAQ	01/2016	06/2016
2 Execution of welding works and prefabricated	Piping erection of DGS Hammar Mushrif / Basra	Samsung engineering	10/2016	09/2016
3 Horizontal boring crossing pipe	Horizontal drilling of various diameter by boring machines in western Qurna / 2	LUKOIL	02/2014	05/2014
4 Horizontal boring crossing pipe	Horizontal drilling of various diameter by boring machines in western Qurna / 2	CPP	11/2017	03/2018
5 Installation and supply of communication towers	Supply, installation and maintenance of communication towers and diesel generators throughout Basra Governorate	ASIACELL ZAIN KORAK	2009	2014
6 Maintenance of flash drum of DGS	Cleaning and mechanical maintenance works inside vessel of crude oil separator in DGS of Hammar & Zubair Mushrif/	STX engineering	11/2017	02/2018
7 GRE Pipe Works	Installation and welding GRE pipes different diameters, more than 50 skilled GRE welder & fabricator participated in this project	Samsung engineering	11/2016	03/2017
8 Construction spherical tank	Construction spherical tank for LPG	Middle oil company/Baghdad	2014	2015

Civil & electrical projects

Project	Project Description	Responsible	Start	End
1 Civil works construction for injection water pipeline for flow line 24	A ditch for injection water pipeline a 24" Dai water Facility in Garmit Ali city	CPECC	2013	2014
2 Civil works construction for Crude Oil Pipeline	Trench Excavation , Backfilling and lowering-in for Crude Oil Pipeline , at FAW-Basra-Iraq	Missan Oil Pipeline Project	2013	2014
3 T-WALL PROJECT PRECAST	Transport and install precast concrete t-walls in WQ2/Basra	CPP	2015	2016
4 BRC FENCE INSTALLATION	Supply & Installation of a security BRC fence in .WQ2/Basra	CPP	2014	2015
5 ASPHALT ROAD	ASPHALT ROAD IN WEST QURNA/2	LUKOIL	2015	2016
6 Painting works	.Painting& sand blasting works for 50,000 mt. sq of tanks	Samsung engineering	2017	2017
7 Electrical Works and control Systems	Installation and erecting of cables with controsystems for .14 buildings within the station Control systems and circuit breakers are highelectrical	Samsung engineering	2017	2017
8 Warehouse construction	Warehouse construction Works at Basra	South oil company	2012	2012

Supply & logistical support projects

Project	Project Description	Responsible	Start	End
1 Supply manpower	supply manpower as welders, fitters, skilled workers, electrical technicians and engineers to SAMSUNG ENGINEERING OF DGS plant in Hammar Musharraf	SAMSUNG ENGINEERING	02/2017	ongoing
2 Supply of generators	Supply of generators for towers communications and emergency maintenance .	South Oil Company/Basra	2009	2014
3 Supply and transportation of diesel generators	Supply and transportation of diesel generators for communication towers and emergency maintenance works.	ASIACELL ZAIN KORAK	2009	2014
4 Maintenance and supply	Maintenance of generators, equipment and supply of materials	Zain	2009	ongoing
5 Supply manpower	supply manpower as welders, fitters, skilled workers, electrical technicians	LUKOIL	2014	2015
6 Equipment Rental	crane, equipment, pick up, man lift/south Rumaila /Basra	CPECC	2017	ongoing
7 General supply	General supply, gravel, cement, sand, safety equipment, paints, kitchen equipment, electrical lighting equipment and security services in the FAW city/Basra.	CPP	2014	2014
8 Rental buses	Rental more than 15 buses (modern and conditioned) to transport Samsung staff.	SAMSUNG ENGINEERING	2016	2017

Mechanical projects

Construction Flow line 10"

where the work was welding and inspection of the pipeline 32-kilometer long in Wasit province under the supervision of the Iraqi Oil Projects Company, began work on 1/2016 until 9/2016, participated in this project about 14 welders, , 25 skilled workers, 16 administrative staff and engineers .

Execution of welding fabricating and erection for piping networks of DGS Hammar Mushrif / Basra under supervision Samsung engineering began from 10/2016 up to 06/2017, including work more 140 skills worker also The work is characterized by strict implementation and good technical management of the project.

Horizontal boring crossing

Execution of the Crossing of pipelines underneath roads and rivers, under the supervision of the Lukoil by horizontal drilling of pipe various diameters by boring machines in west Qurna /2 LUKOIL 02/2014 up to 05/2014

Horizontal boring crossing pipe

Horizontal drilling 28 diameter five point from DGS6 –DGS 8 at length 258 mt. by boring machines in western Qurna 2 under supervision CPP 11/2017 - 03/2018

Supply and transport Diesel to the communication towers sites, Maintenance and emergency response for generators of the Communication towers. (2009-2014)

Maintenance of flash drum

Maintenance of flash drum of DGS Cleaning and mechanical maintenance works inside vessel of crude oil separator in DGS of Hammar & Zubair Mushrif under supervision STX engineering company 11/2017-02/2018.

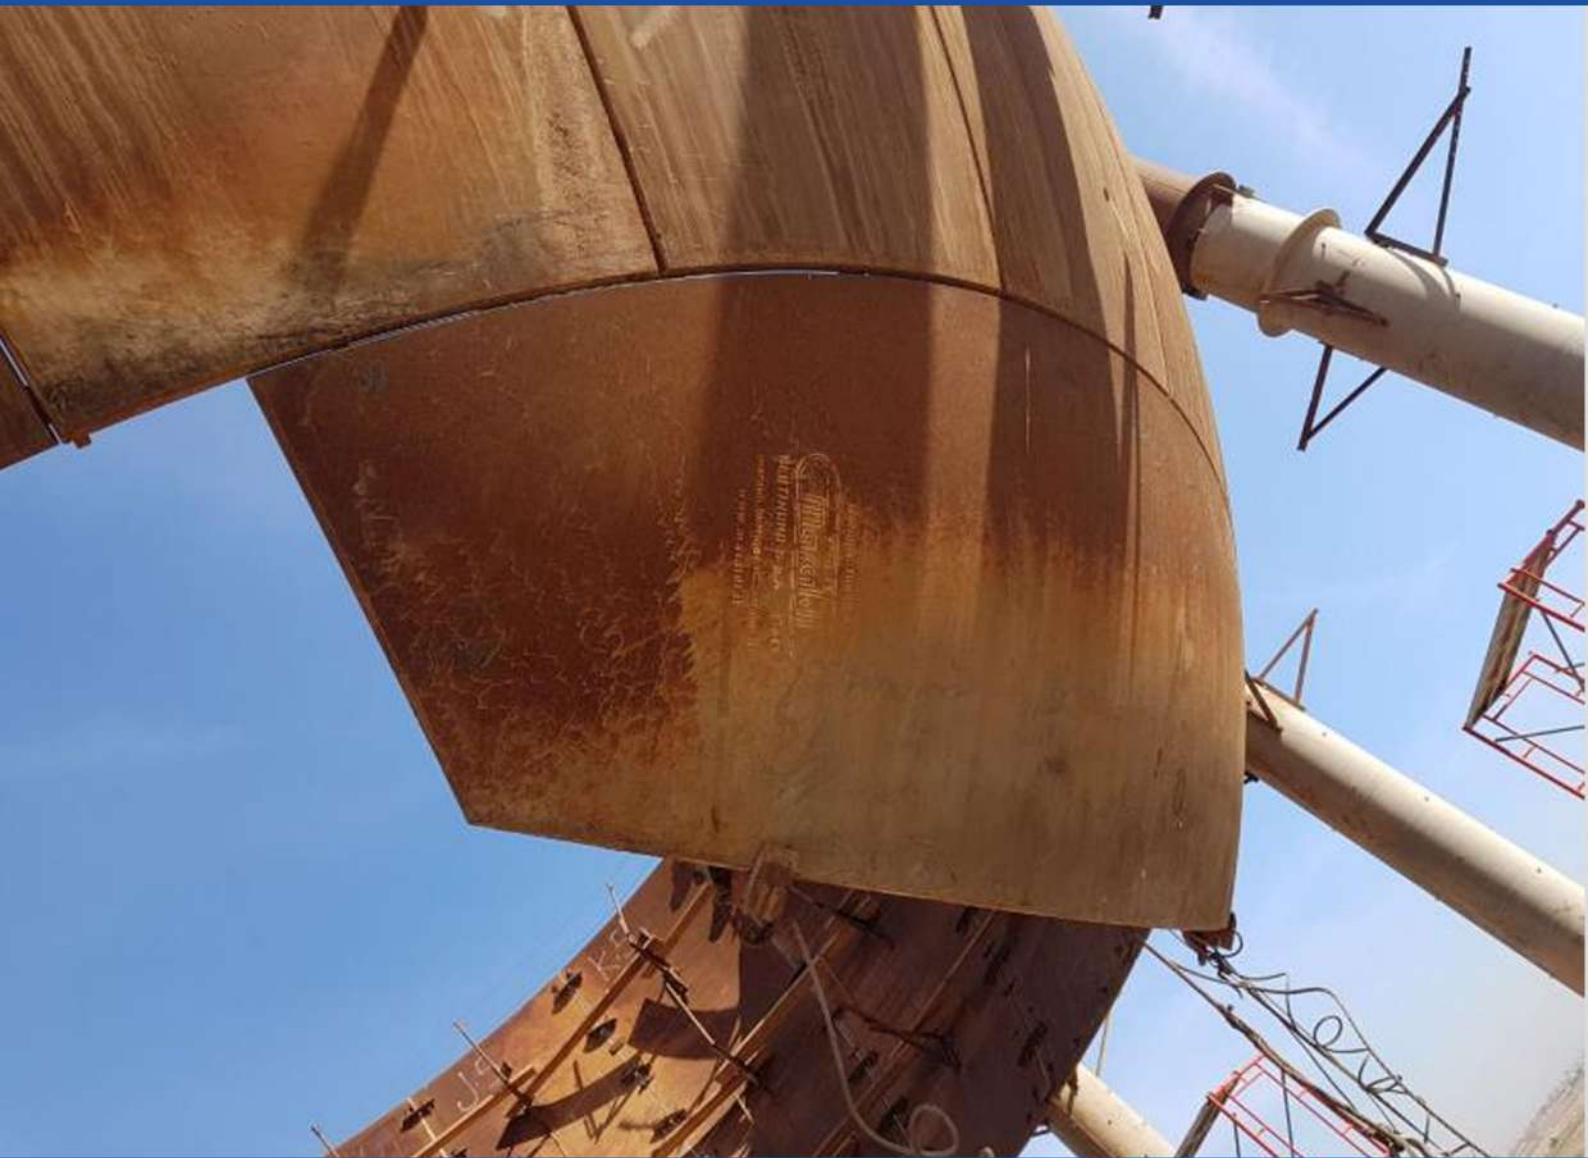

Clean inside a vessel of residual oil and sludg for the purpose of obtaining a hot work permit

GRE PIPE WORKS

Installation and welding GRE pipes different diameters, more than 50 skilled GRE welder & fabricator participated in this project under supervision Samsung engineering /11/2016 -03/2017.

Construction spherical tank of two LPG tanks, included the work fabricate and welding for Ministry of oil /Middle oil company/Baghdad/ 2014-2015.

Construction spherical tank of two LPG tanks

CIVIL PROJECTS

Construction civil works for injection water pipeline 24

A ditch for injection water pipeline a 24" Dai water Facility in Garmit Ali city under supervision CPECC /2013 -2014.

CIVIL works construction for Crude

Trench Excavation, Backfilling and lowering-for Crude Oil Pipeline (32 ") length of 110 km, at FAW- Basra-Iraq for the Misan oil company 2013 -2014.

T-WALL PROJECT PRECAST CONCRETE

T-WALL PRECAST supply & Transport and install precast concrete
T-walls Total quantity (850 mt.q) of W Q 2/Basra for CPP /2015 – 2016.

Painting & sand blasting

Painting & sand blasting works for 50,000 mt. sq. of tanks in DGS Hammar Mushrif for Samsung engineering /2017.

BRC FENCE INSTALLATION
Supply & Installation of a security BRC fence in WQ2/Basra for CPP /2014 -2015.

Paving asphalt road on in West Qurna / 2 for Lukoil company /2015.

Material Supply and **logistic** Service

Transportation & Logistic Support

Our company owns full land transportation convoys specialized in transporting a wide range of products, transporting materials and providing all kinds of heavy equipment.

Material Supply

Construction Materials, Sub-Base Type A,B,C Gravel, Cement, Fuel, Soil Hand Tools Personnel Protective Equipment (PPE) Painting Materials Kitchen Accessories Electrical Appliances Electrical Lighting accessories Sanitary Accessories Decoration Facility .

General Rental of Equipment

Crane, equipment, pick up, man lift for CPECC in south Rumaila -Basra /2017-ongoing.

Rental heavy machinery equipment Samsung projects with various equipment, total reaches to 60 Machinery and equipment to DGS Hammar Mushrif project /Basra /2016-2017.

Caravans supply for Korean camp in DGS Hammar Mushrif project, total: 40 caravan as offices, bathrooms and VIP bedrooms for SAMSUNG ENGINEERING /2015.

Concrete Supply and casting for CPP Company in W.Q 2 -Basra /2015.

Our facilities

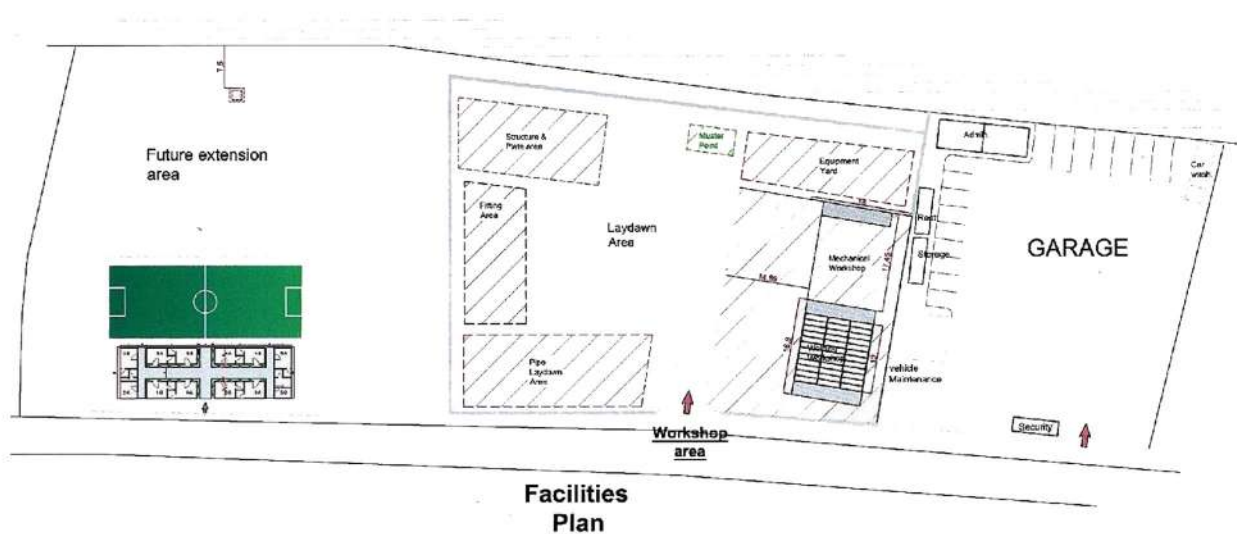

Concrete batch plant

First, plant with capacity 120 m³/ hr. The patch plant location in West Qurna /2, We have a calibration certificate from the Ministry of Planning – central organization for standardization & supply ,The quality of our products is known and supports our customers (such as CPP), so we work in different types such as C10-C15-C20-C30-C40. Second, batch plant of location Abu Al Khaseeb, Basra, Iraq GPS: 31.05.31 N, 47.27.50 E, The production capacity is 90 m³ / h of German-made origin.

Complex facilities of the company

We have a main complex for the company's facilities such as a staff camp and a central workshop with the company's warehouses and a garage for equipment and machinery. This complex is located next to the company's second location in Bahadriya - Basra on Hamdan Industrial Road, as shown in the design below:

- Camp
- Workshop & store
- Garage
- Laydown Area

CAMP IN WEST QURNA / 2

Our Clients

Our Certificates & ISO

The company has many certificates and letters of appreciation from several sources we will show the most prominent.
